MUNICIPAL CAR SYSTEMS LOSE

Traction Troubles in Europe Grow Numerous.

Broken-Down Lines Turned Over to Cities.

Tax Rates Going Up Because of Poor Work.

BY FLOYD GIBBONS.

[BY CABLE—EXCLUSIVE DISPATCH.]

PARIS, July 5.—In these troubled times of intense taxation, citizens of the three big capitals of Europe—London, Berlin and Paris—find themselves suddenly harnessed with enormous deficits in the operation of their municipally-owned and directed traction systems.

Investigations in a half-dozen large European cities report that all city traffic organizations, both private and government-owned, are experiencing financial distress.

It was inevitable that the city traction lines would become run down and worn out during the extra strain of war over a period when wages and upkeep were being paid owing to lack of materials and labor.

It was equally inevitable that the war conditions with their high cost of labor and material and public depression, would drive the private owners to unload their trucks and bankrupt systems on the city governments.

Nothing more complex than the dollar mark and the balance sheet dictated this reversal of form on the part of private traction magnates who, during the fat years before the war, always could depend upon to fight municipal ownership tooth and nail.

TUNE NOW DIFFERENT.

Now the tune has changed. The private companies finding themselves near the rocks immediately tender to transfer the reins to the shoulders of the taxpayers.

In Paris and its environs the surface lines, including tramways and motor buses, jointly have been acquired by the city of Paris and the department of the Seine.

In London, the tramways and motor buses, jointly have been acquired by the city of London and the county of Middlesex.

In Berlin, the tramways and motor buses, jointly have been acquired by the city of Berlin and the province of Brandenburg.

The entire surface system became the property of the city and the department on Jan. 1, 1921.

Eventually, when contemplated extensions are completed, it is estimated that the tramway will extend 1600 kilometers and the motor buses 500 kilometers.

The transportation companies will receive annuities of 32,520,000 francs. The first payment was made on March 1, and the final payment in December 1, 1920.

PARIS TROUBLES.

The Paris surface lines—with only a few exceptions—faced serious financial trouble at the moment of their purchase by the city and all departments of the Seine.

Despite the fact that fares had been raised from 15 and 18 centimes to 25 and 30 centimes, their rolling stock needed repairs or complete renewal.

The companies alleged that the fare increase did not compensate for the increase in wages and all supplies. Except for one prosperous concern in Lyons and another in Bordeaux, the surface lines and utilities concerns of the French provincial cities face most serious financial trouble.

Wherever distances are short, the increased fares have resulted in a notable decrease in traffic. Laborers and clerks preferring to walk than pay the fares.

Reduction in the cost of coal and supplies might better their situation, but generally speaking, the situation is manifestly toward municipal and departmental purchase.

BERLIN IN SAME FIX.

Municipal acquisition of the Berlin street car lines in 1920 at a time when they were operating at a loss has resulted in increased deficits.

During the last few years 80 per cent of the surface lines throughout Germany have been operating at a deficit. Most of these lines are publicly owned. In some instances competing private lines met their expenses and have paid small dividends.

The Hamburg municipal lines, which have been considered the most efficiently managed of Germany, barely are able to break even. These facts and figures are of vital importance to the cities and companies' statements and from reports to the Berlin transportation officials.

One of the chief reasons for Berlin's heavy deficit is the practice of the city in giving money to the tramway lines at a rate of 13 marks. Other reasons are the enormous increase in wages due to high cost of living and a disproportionate increase of fares.

NEW PLAN BROACHED.

In Berlin it is believed that the municipal transportation problem is too vital to permit the drawing from these facts the conclusion that the lines should be left entirely in private control. Many think that deficits, which they term inseparable from municipal control, can be overcome by permitting a co-operative arrangement with private capital.

In such an arrangement the municipally owned stock would be left in private hands. This plan is finding many adherents throughout Germany. It has been operating in Frankfurt and Koenigsberg with marked success. It is believed if it were introduced in Berlin and other large centers it would produce equal efficiency.

The official returns for London tramways run by the London county council show a deficit of \$12,000,000 for the fiscal year. Receipts have amounted to \$4,900,000. About 98,000,000 passengers were carried during the fiscal year 1920-21, as compared with 85,000,000 during the previous twelve months. The cars covered a total distance exceeding 57,000,000 miles.

KILLS GIRL AND HIMSELF.

[BY A. P. NIGHT WIRE.]

MARSHFIELD (Or.) July 5.—Bert Clinton, aged 21, shot and killed Erma Wagner, aged 18, at Myrtle Point, after a dance closing on the Fourth of July celebration at that place, early today, according to a report to local officers. Clinton killed himself. Testimony of the shooting. Both were members of prominent families.

GERMAN SAYS AMERICA MUST ASSIST EUROPE

MINISTER OF RECONSTRUCTION HOPES FOR LASTING PEACE WITH UNCLE SAM.

[BY CABLE AND ASSOCIATED PRESS.]

HAMBURG, July 5.—Germany and the United States were represented at the opposite poles of the world's financial structure by Dr. Walter Rathenau, Minister of Reconstruction, in an address today.

"The United States is the world's chief creditor and Germany is the world's chief debtor, with all other nations sandwiched in between as creditor or debtor nations," he said.

He argued that the depreciation of the currencies of the various nations was tending to weld them together, but that the depreciation of the United States, having been able to escape the ravages of wartime and the post-war economic invasion.

"Germany," he continued, "lives by the work of the average person. Therefore, only able to pay our debts with our products, or mental and material as the United States."

Among those the minister was referring to were the United States, the National Union of Finance, and the National Union of Commerce.

"It is to be hoped," said Dr. Rathenau, in discussing America's position in the world, "that the Atlantic, with which we have peace and friendly relations, will be a bridge between us and the world."

He said that the Atlantic, with which we have peace and friendly relations, will be a bridge between us and the world.

PROTESTS ON
TARIFF MANY.

Californians Try to Secure
More Protection.
Congressmen Will Make Last

Lemons Will Go "as is," the
Decision Reached.

(EXCLUSIVE DISPATCH)
WASHINGTON, July 6.—Thou-
sands of protests from California
farmers and fruit growers have
been pouring in on the Congress-
ional delegation because of the
tariff protection offered many of
the products of the State in the new
tariff bill. So varied were these
protests that the delegation met this
morning in the office of Julius Kahn,
chairman of the delegation, and out-
lined a plan of campaign to accomplish
any increase in the duties which may
be possible.

Every angle of the situation was
considered carefully, but at the end
of the day the delegation was not
opposed to raising many of the rates
much. Some frankly stated that the
protection offered many of the
products of the State in the new
tariff bill. So varied were these
protests that the delegation met this
morning in the office of Julius Kahn,
chairman of the delegation, and out-
lined a plan of campaign to accomplish

Long Hairs Are After Dempsey on Assault and Battery Charge.

REFORMERS TRY TO PINCH JACK.

Dr. Crafts Includes Officers of State in Charges.

Wants to Arrest Champion for Assault and Battery.

Intends to Prohibit Boxing at the Jersey Arena.

(BY A. F. NIGHT WIRE.)

JERSEY CITY, N. J., July 5.—Somebody is going to be arrested on account of the Dempsey-Carpenter bout. Dr. W. F. Crafts, superintendent of the International Reform Bureau, said today after a conference with officials of the commission. He declared a case would be brought before the end of the week to determine whether the bout was illegal.

He also said he would seek the impeachment of Gov. Edwards and other State officials who witnessed the fight. He said he would charge the Governor with malfeasance of office and with attending a law-breaking exhibition after being warned by the reformers. He was silent as to his method of procedure. He proclaimed a case would be brought before the end of the week to determine whether the bout was illegal.

SAYS SCOTS AND ENGLISH.

(Continued from First Page.)

Long and short approach under these circumstances would seem to be half missed or topped shot, as it would roll up over these mounds keeping a better direction to the pin.

DIFFERENCE IN STYLE.

The English and American method of approach is quite different. The English player runs his ball back and the pitcher and run their favorite approach, while over here it is the high pitch with the back spin. Our style is much the better for our own golf course and their method gets the better results for them on their own courses.

I will go further and say that our idea is much the sounder. There is hardly anyone who cannot learn a pitch-and-run shot, and usually it makes little difference whether he learns it or not, as he would be able to hit the ball to get away with a topped shot, that would surely make him grip nine times out of ten over here. If this thing is possible, and I assure you that it is, it adds too much luck to the game. To player should miss a shot and reap more benefit from it than if he played it perfectly.

The inland course in Great Britain is quite similar to our own, but I am convinced not as good. The method of trapping leaves room for a wider range of play, which would permit a ball hit off the line to go out free. The traps are not as close to the green as our own traps are, and therefore accuracy is not so essential.

America has spent much time and money in studying the best course in England. We have on many of our best courses duplicated the best English courses, but never copied a course in its entirety.

We have learned a lot from England and Scotland about building golf courses. The time has now arrived when they can learn something from us in the matter. The vast amount of money spent on golf-course construction in the United States has enabled us to accomplish almost anything along that line. I believe the day has passed when a golf course or a golf links builds itself and maintains itself. The old idea that golf was played in a pasture is quite ridiculous nowadays.

Tackles Infant Chess Wonder in Deciding Match.

Little Sammy Ruschewski and Dr. R. B. Griffith will battle for the mastery in chess tonight at the Los Angeles Athletic Club.

The doctor is the only one of a score who held out against the boy marvel when the latter played twenty simultaneous games two weeks ago. Apparently Dr. Griffith held the advantage in the match when the boy was defeated owing to the lateness of the hour. When they played it off last Friday, however, Sammy won by a few moves.

A technicality was involved, and tonight's return match was arranged to determine the issue. The fans, many of whom are coming from other cities, expect to see an excellent match. It will be in the gymnasium at 8:30 sharp, and open to the public.

Dr. Griffith, a player of considerable reputation, is unwilling to concede that a child of 8 years can defeat him, and Sammy seems positive that he can do the trick.

ANGELS DENT ESSICK'S LADS.

mine with all the juices thrown into the sink before they are served. The unexampled hospital list did not dismay Bill Essick in the least. He sent a shredded line-up to the field and grabbed his old station, near first base with as much pep as usual. If the Angels were very much to the leeway in the score-joints line, they made up for it good and plenty through the tongue and lungs route.

It all happened in the sixth inning after Chadbourne had walked and Lecker had jarred a double to left center. Stubby Edgington was at the plate and had two strikes on him. He was dead cray to jab out any old kind of a hit. Finally an apricot came over the plate with a sinuous grip on its cheeks. Stubby Edgington was at the plate and had two strikes on him. Then Bert Niehoff finding one of Dell's swiftest to his liking, lay the lumber on it for a terrific triple against the score board, tallying Crawford. McCabe went out, Gorman to Lecker. In the ninth the Angels felt the plate again, when after McCabe had fanned, Carroll tripled down the first base line. It was at this juncture that Hyatt, who had trailed the ball, pulled off a Pete Schneider.

Ham got his talons on the pill for a moment and then followed a juggling act that would find its way onto the Orpheum stage at a pretty stiff salary. We believe that Hyatt really got the pill in chancery on his thirteenth stab, therefore beating Pete by one. Griggs bolted one to right that would have been a base hit in Ireland, sending Carroll over the plate.

ONLY SCORE.

The Tigers scored their only run in the sixth something like this: Chadbourne walked and went to third on Lecker's double to left center. Hyatt then sent a lowering baby

America's Amateur Golf Champion Plays in Big Tourney, July 18.

CHICK EVANS IN NATIONAL OPEN.

Play at Columbia Country Club on July 18.

Amateurs and Pros to Play in Golf Tourney.

Cracks Are Among the Entrants.

IT WAS A HOT WEEK

NEW YORK, July 5.—Charles Evans of Chicago, national amateur golf champion, and one of the leading amateur golfers of the world, is entered, as are many other leading amateurs, in the national open championship, which will be played at the Columbia Country Club, Washington, D. C., on July 18.

American team of golfers now in New York, including Jack Hutchinson, British open title-holder, and George Duncan, professional, who will tour the United States this summer.

Edgewood and J. Victor Kavanagh, professionals, and a number of the best club and leading California players, are prominent entrants in the tourney.

It is expected Monday night, when Evans, said Walter Hoge, who holds the world's mid-western championship, will take the title away from his opponent recently. But

Tom Logan, who won the British title, is expected to be a strong contender.

THE MASTER PAINTER'S CHOICE

A Happy Paint Combination

The formula—the material—the method of distribution—the house business policy—all these are factors which make Bradley's High Grade Liquid Paint a product recommended enthusiastically by the most expert master painters.

Bradley's paints have unusual covering power and the elements that make them so worthy for use in the most difficult and important work.

WILLARD WILLING TO FIGHT CHAMP.

IT WAS A HOT WEEK

LAWRENCE (Kan.) July 5.—Jack Willard is willing to meet Jack Dempsey again, he said today on his farm near here.

The ex-champion added that he was even anxious to get a chance to recapture the world's heavyweight championship, which he lost two years ago at Toledo.

Jack said it was a lucky punch in the first round that ruined him.

"I've led the simple life; I am in splendid shape today," he added. "I would need four months for training and conditioning—then I will be ready for Jack Dempsey."

It was all an accident, Thye asserts, that he couldn't fight the bout. An accident in the form of an uncovered iron peg, or something closely allied to an iron peg.

Anyway, Walter says he's willing to give his web-footed enemy another chance to realize his (Miller's) impossible superiority.

The two demons of the mat will grapple again next Monday night at the Blythe Stadium in the event of the bout will be given to the Disabled Veterans of the World War (not of the match) Los Angeles Post No. 1.

Capt. John M. McCaw, late of the British air service, is responsible for bringing Miller and Thye together in a return match. Capt. McCaw is interested in the event not only as a sportsman but as a supporter of any event which will benefit our ex-service men.

HORSE BREAKS STATE MARK IN HIGH JUMP.

MARK IN HIGH JUMP.

The California record in the high jump was broken at the Riverside Horse Show recently when Jack Holt's Robinhood cleared the bar at 6 feet 8 inches. The former mark was 6 feet 4 inches. Robinhood won the event easily, making each successive height in one jump.

His owner believes the horse can go much higher and he is training him with the hope that he may better the Coast record of 7 feet 4 inches made by Credential at Vancouver.

The world's record jump was made at Madison Square Garden by Heatherbide, the height being 7 feet 10 inches.

THOMSON SMASHES.

(Continued from First Page.)

Dan Shea and Raab and Gilligan for their efforts. Both Shea and Raab bettered the mark by which Thomson won the all-around in 1919. Shea was second, scoring 4370 points, and Raab's first all-around mark. He is Raab's first all-around meet. He is student at U.C. and trained by Dean Cromwell, tutor of world champions.

The relay races had a New York atmosphere. A.A.U. records being broken in four of the five.

Ernestus, who announced that the world's record in the two-mile relay had been bettered by the N.Y.A.C. team of Sellers, Courage, Adams and Helfrich. The former world's record of 15:45. The new record was 15:30. The former record was 15:45. The new record was 15:30.

A new American mark in the 440-yard relay was set by the N.Y.A.C. team of 42:45. The old one of 43:45 was held by the University of Pennsylvania four and made in 1919.

The second was slipped from this. Bernie Webers, Jr., was lipped by six feet in the first 110 yards by young Blenkinson of the L.A.A.C. in spite of the fact that Papa Webers was burning his lungs pulling to money to give it to Blenkinson in the neck.

Putt lost on his round with Ray. Putt drew up on even terms with Loveloy. Instead of getting away to a running start, Paddock started fairly and Farrell had a five-yard lead. Paddock made up most of this, but not all.

ANOTHER RECORD.

The 180-yard relay went to New York when Kelly lost too much ground in the first 120 for his team mates to make up. The time of 1m. 27 3/4 was 3-1/4 better than Pennsylvania's former record made in 1919.

The N.Y.A.C. grabbed the four-mile and then the final, the one-mile speed test. The winning of this, however, left a distinctly bad flavor in the minds of all present when Ray, running the last lap, apparently deliberately cut over and fouled Schiller after passing the baton to Stevenson. All Ray had to do was to keep straight on and he would have bothered no one. This act of his crowding Wilson over into another lane when the latter tried to pass him on the turn, earned for him a disqualification. And when Bernie Webers, Jr., galloped out in front of the assembly with an angry roar to condemn his runner's dereliction, he certainly left an impression of poor sportsmanship in the minds of all present.

Sher, may have been a champion sprinter in his day. But as a champion sportsman with the ideals of the game at heart he would have captured no votes at Paddock field yesterday. The summary:

ALL-AROUND CHAMPIONSHIP.

OF WAR GREAT.America Nearly Cut Off from
Allies, Says Report.Submarine Menace Prevented
Needed Repairs.International Chamber Talks
Relief Measures.(BY CABLE-EXCLUSIVE DISPATCH.)
LONDON, July 5.—How nearly
the United States came to being
cut off from communication
with its allies during the World
War as a result of the submarine
menace, is told for the first time in
a report on the communications situ-
ation in this country submitted to
the International Chamber of Com-
merce in session at London by the
American delegates.This report was prepared by a
committee of leading American busi-
ness men who are interested in
the cable industry. Col. John J. Car-
ty, vice president and chief engineer
of the American Telephone and
Telegraph Company, New York,
headed the committee."At one time," according to the
report, "there were only eight cables
connecting the United States with
Europe, as compared with seven-
teen in service at the beginning of
hostilities."REPAIR DIFFICULTIES.
The report points out that great
difficulty was experienced in re-
pairing the cables because of the
submarine menace, and this trouble
was accentuated by the holding of
the cables for long periods on active
service within the war zone. The
cables were further reduced by the
interruption of two German
cables."Further difficulties arose through
the calling out of cable and land
line employees for military service,"
the report says. "This difficulty
was promptly corrected with respect
to Europe in 1918, but land opera-
tions continued under considerable
disability from this cause during
the entire war period.""Added to these reductions in
facilities and drafts upon the operat-
ing forces was a great increase in
traffic which, during the latter part
of the war period, as a result of in-
creased governmental business and
restrictions on the use of cable
codes, rose to practically double pre-
war volume. This excessive load
was only in part relieved by the
rapid development of trans-Atlantic
radio facilities under military
auspices."Communication with Atlantic
and South American countries was sub-
jected to similar difficulties, according
to the report.YAP IMPORTANT.
The commercial importance of the
island of Yap as a cable station is
apparent from the report. It is
set forth that the restoration to
service of the former German
cables centering at Yap is needed
to help relieve the present over-
burdened trans-Pacific cable ser-
vice.Other measures of relief contem-
plated are the laying of a new cable
following the route of the existing
cable to Japan which cable, it is
stated, was practically double pre-
war volume. The carrying out
of these projects will substantially
improve the trans-Pacific service,
it is said.Other projected cable facilities
are discussed in the report. These
include the development of radio
stations to help relieve the subma-
rine cables.In the opinion of the committee
the future peace and commerce of
the world depends in a large mea-
sure upon adequate means of com-
munication. The committee urges
the delegates of the eleven
countries represented at the con-
ference to help "create public senti-
ment in their respective countries
favorable to the most liberal en-
couragement of the building up of
the various intra-national and inter-
national communication networks."VESSELS OF

IN VICKSBURG COURT.PRISONER TRIES TO GET RE-
VOLVER AND IS KILLED
BY SHERIFF.(BY A. P. NIGHT WIRE.)
VICKSBURG (Miss.) July 5.—
George Deal, negro under indictment
for killing a preacher, was shot to
death in the courtroom here last
night by Sheriff B. H. Shannon when
Deal tried to wrest a revolver from
the hands of a deputy.Court was in session and the judge
had postponed decision on the date
of Deal's trial when the negro arose
and snatched Deputy Sheriff Martin
Hobbs' gun from a table. Hobbs
grappled with him, Sheriff Shannon,
seeing that lives of those near by
were in danger, fired three shots in-
to the negro's back, the third killing
him.DESPONDENT WOMAN
MURDERS HER BABY.(BY A. P. NIGHT WIRE.)
SPokane, July 5.—Despondent,
according to her statement to the po-
lice, over failing health, Mrs. Irene
Weber today shot and killed her 3-
year-old daughter, who lay sleeping
in bed. She then called her hus-
band, Joe Weber, from his work, and
went to the police station with a
friend of the family.She told the officers that she had
intended to kill herself also, "but just
couldn't do it." She had written a
note to her husband in which she ad-
vised him to "don't bother over me,
but go on being happy." Mrs.
Weber is held in the City Jail,
charged with murder.VALUE OF BAY CITY

DAILY TRADE TALK.

NAPOLEON—BANKER.

Where are the Coins of Yesterday? Gold Movement; Finance; Incorporation.

Phase of Little Corporal's Activities of Interest to Financiers.

BY CHAPIN HALL.

No one has ever satisfactorily solved the problem of the pin. Where do they go? The billions of points are swallowed up in the universal scheme of things, and the few swelled down by curious infants do not begin to account for the absorption.

But how about the pennies? A single pin hasn't very much intrinsic value, but a cent is a cent and 100 of them make a dollar. When you think of the pennies? Have you, for instance, a greater accumulation of coppers than you had a year ago?

For every working day in the year the Philadelphia mint is turning out more than 1,000,000 pennies. In 1920 American mints made five new pennies for every one of our 110,000,000 people. It is as easy as making a nickel. Not so many of course, but tons and tons of them just the same.

Hard money does not wear out. At least not that fast. It is not hoarded in any considerable quantity, yet the problem of keeping up with the public requirements in the manufacture of small coins is one which taxes the capacity of our money foundries. Where does it go? It is to be sure, but the copper cent was a curiosity in California. It was found only in the possession of newly-arrived tourists and to have a penny or a bank note was almost prima facie evidence that the owner was not long out of the East. Now the 1-cent piece is our most popular coin and gold has disappeared entirely from circulation.

It is interesting to know that before 1793 the United States had no coins of its own, and that our first money came from 100 ounces of tending plate turned over for the purpose by President Washington. The first mint did not produce in a single year more than 1,000,000 pieces of money were coined.

At the present time there are over \$5 worth of silver coins or bullion for every inhabitant and more than \$25 in gold. In 1873 there was only 15 cents in silver and \$2 in gold.

The government is now engaged in replacing the 300,000,000 silver dollars melted up and sold mostly to India a few years ago. Uncle Sam is paying \$1 an ounce for silver although the open market price for the metal is far less. On the other hand, there is a big profit in the coins of the pennies as the bronze in a cent is worth only about one-tenth of a cent.

The Philadelphia mint last year made over 21,000,000 quarters; 41,000,000 dimes; 11,000,000 nickels and 157,000,000 pennies. Mint officials say that times and quarters are the most popular silver coins, with the nickel in highest demand.

A majority of the coins in your pocket will bear stamp of a comparatively recent year, yet they are being turned out at the rate of hundreds of millions per annum. Where do they go?

OUR GREATEST INVESTMENT. The American public is not awake to the importance of insurance as an investment and recent reports fairly stagger one in the vastness of their totals. One great company which claims Los Angeles for its home is establishing new records this year while others maintaining important branches in this city agree that 1921 will make insurance history in the volume of new business.

One agent has developed a novel approach which he says is effective in many cases, and in doing this he has evolved some interesting statistics. His argument is that we should spend upon a constructive investment, such as life insurance, some of the large sums we throw away upon meaningless and so-called luxuries.

He points out that for cornet, trumpet, lip sticks and other devices for the doubtful beautifying of the body \$15,000,000 was spent last year. That sum, conservatively invested through insurance would have built a lot of schools, libraries, highways, harbors, power plants and developed thousands of acres of farming land with its resultant chain of profit and improvement.

The list, of course, can be carried out almost indefinitely according to the idea of the individual as to what constitutes a nonessential. Some would say that the \$100,000,000 spent for cigarettes and the \$100,000,000 for cigars might have been more profitably employed, while still others would have the \$100,000,000 spent for jewelry turned into other channels.

GOLD MOVEMENT. Gold imports into the United States in the fiscal year just ended aggregate in round terms \$450,000,000 or more than in any year except 1917, when they aggregated \$717,000,000.

The beginning of the war period, says a statement by the National City Bank of New York, saw a flood of gold pouring into the United States from Europe, which found her stores of the yellow metal the quickest means of paying for her supplies which she must have from us, and the quantity of gold entering the United States in the fiscal year 1915, the first full year of war, was \$172,000,000 or more than in any earlier year in the history of the country. But that was only the beginning of the gold flood, for in 1916 the total of gold imports was \$424,000,000, and that of 1917, \$717,000,000. Then we began to loan the Allies the funds from which to make their purchases in the United States, and in 1918 the gold imports fell to \$125,000,000, and those of 1919 to \$42,000,000. But with the cessation of our loans to Europe, gold began to come again and was \$150,000,000 in the fiscal year 1920, and \$480,000,000 in the fiscal year 1921.

CO-OPERATIVE LEAGUE. The commissioner of corporations has granted a permit for the sale of the securities of the Pacific Co-operative League, a consumers' organization, having about 1,000 members, operating fifty stores and originally incorporated in 1911.

The league will not be incorporated, but will simply have along side of it an additional corporation to take care of the capital and the business, while the fraternal features will be developed more fully by the parent organization.

A portion of a statement issued by the league says:

"The financial statement shows

One hundred years ago Napoleon died. Those of us who are in the banking profession recognize that he was one of the world's greatest financiers.

His wars have vanished, but his banking reforms survive and have carried France through many crises long after his campaigns were over. His father was an utterly impractical dreamer, a spendthrift, thus his mother early instilled frugality and saving habits among her children.

When Napoleon was 20 he received less pay, as a very subordinate officer in the French army, than many minor bank employees now do in the United States. Yet he was saving enough to educate his two younger brothers.

When he was 30 he founded one of the greatest banking institutions in the world, now 121 years old in usefulness.

On Jan. 18, 1800, he decreed the establishment of the Bank of France, with a capital of \$6,000,000. These figures then seemed large, but today there are at least thirty national banks in the United States with a greater capitalization.

It superseded the "Caisse des Comptes Courants" (Bank of Current Accounts), which had been founded on June 25, 1789, and which had carried on a discount business, received deposits, opened current accounts and issued notes payable to the bearer and at sight.

The Bank of France did all these things, and more. It was the center of the French banking system, since it had the government behind it.

Good judges of the bond market predict a steady rise regardless of the course of the stock market. It is pointed out by the Wall Street Journal that this class of securities has failed to reflect the increased purchasing power of the dollar, due to the decline of commodity prices. Then, too, money rates are showing unmistakable signs of coming down, which heretofore has always been an economic factor influencing rising bond prices.

Aside from the movement of bonds long on the market, new issues put out during the last year have also made a very good showing in view of violent declines elsewhere.

MURDER TRIAL IN PROGRESS.

Second Hearing of Lindsay Man Gets Under Way.

Thirty-seven Seek American Citizenship.

Four Tons of Peaches Go by Parcel Post.

VIALIA, July 5.—Better progress is being made in the second trial of T. T. Conley for the murder of Joe Silva, March 8 last, near Lindsay, the prosecutor passing nine witnesses through their testimony during the day. These included Wayne Switzer, deputy coroner, recalled, T. A. Elliott, reported at the inquest, C. T. Webb, Amelia Webb, P. E. Hadden, Burr and Roland Hampton, who witnessed all or part of the events leading to the shooting by Conley of Silva. All told, the jury given at the trial.

Conley was the only witness who declared that Conley did not retreat to his automobile and get his gun, but that he had the gun in his hand when getting out of the machine.

O. C. Rhine, city marshal of Lindsay, and Guy Webb, Deputy Coroner at Lindsay, were of examination made of the shed after the tragedy and of the condition of the bodies.

Conley was the only witness who declared that Conley did not retreat to his automobile and get his gun, but that he had the gun in his hand when getting out of the machine.

EXPLOSION OF ROADS IS NEW.

Severe Blast Rocks Roadhouse in Illinois.

Seattle-Tacoma Highway is Also Damaged.

Lack of Expansion Space Given as Reason.

NEW YORK, July 5.—Many sections of the country, including the Seattle-Tacoma highway, have been experiencing something entirely new in the way of explosions. The new phenomenon seems to have developed with American road-building.

Occasionally, a gas main, a manhole or a water main beneath a street lets go in New York, but for Seattle-Tacoma highway, there has been nothing on other parts of the country.

Maywood, Ill., has now come into the limelight by reason of the explosion of a road pavement just outside her limits, and Seattle, Wash., reports one that has led to litigation for damages against the city. On the Roosevelt road, near Maywood, a concrete pavement ten inches thick exploded directly in front of the Maywood roadhouse.

Highway engineers declared that the explosion was caused by a lack of sufficient expansion space between the joints of the concrete as well as the joints of the pavement to care for the expansion of the concrete as the joints of the heavy roadway caused the joints to all, as frequently happens.

The result was that the roadway which was ten inches thick and of solid concrete, buckled at the joint point and burst, throwing pieces of the heavy pavement several feet into the air and leaving a hole nearly fifty feet square.

THIRTY EXPLOSIONS. The explosion near Seattle occurred on the Des Moines road, a part of the high-line route between Seattle and Tacoma, where there was built with a concrete pavement.

Engineers declared that the explosion of this road, as in the Maywood case, was due to the failure of the joints in the structure to take care of the expansion.

From one of the larger hospitals in Kansas City comes the story (guaranteed under the Food and Drug Act) of a young doctor and an equally young and well-trained nurse who were called to attend a patient who had been sent to the hospital by a private physician.

It is said that, following the operation, the pupil of the patient's eye was found to be in a condition to be somewhat less than last year in practically all parts of the body.

FOREIGN CROP OUTLOOK GOOD.

Conditions in Canada Are Ideal for Growth.

General Rains Help Grains in France.

Dry Weather Suits Wheat in Great Britain.

WASHINGTON, July 5.—The foreign crop outlook at the end of the season, as reported by reports received by the Bureau of Crop Estimates, United States Department of Agriculture, is summarized as follows:

Crop conditions in the prairie provinces of Canada during last month were ideal for germination and growth, with the result that in any year the crop of wheat will be more favorable than they have been in any year since 1911.

In Quebec and Ontario, the weather during last month was very favorable for wheat, with the result that in any year the crop of wheat will be more favorable than they have been in any year since 1911.

In France, the weather during last month was very favorable for wheat, with the result that in any year the crop of wheat will be more favorable than they have been in any year since 1911.

In Great Britain, the weather during last month was very favorable for wheat, with the result that in any year the crop of wheat will be more favorable than they have been in any year since 1911.

The total area estimated to be planted to wheat for the harvest of 1921 is 18,654,100 acres, as compared with 18,322,900 acres, the area planted in 1920, and with 18,343,000 acres, the annual average for the five years, 1915-1919.

Of the total area sown in wheat, 19,195,000 acres, as compared with 19,195,000 acres, the annual average for the five years, 1915-1919, is 19,195,000 acres.

Reports from France indicate that there have been general rains in the southern part of the country and the general prospects of the crops in this section are reported as good.

The weather in the northwestern part of the country, where rain is needed to relieve the present dry condition, at the present time it is difficult to say how the crops will turn out as the weather is very variable.

It can, therefore, hardly be considered the restrictions imposed any serious disability on foreign export.

BRITISH CROP PROMISING. In the United Kingdom the effect of the recent dry weather has varied considerably, according to the nature of the crops.

derbilt II is staying at the Berkeley Hotel.

I saw Lady Astor, M. P., at the Prince of Wales' Theater the other evening, where the Viennese comic opera, "The Gypsy Princess," is

staged. She seemed to be enjoying herself immensely until she arrived at the third act when all the "show girls" of the piece walk about waving huge fans of paradise plumes, ostriches and ostrich feathers. It is taken to mean what it means: most lips, one ought never to settle down at all. For on most lips "settling down" means nothing more, less than stale stagnation.

There are a few fortunate people whose natural lips are so

ers. Then I noticed that her American ladyship became very excited and talked unceasingly to the Duchess of Somerset, who was in the box with her.

Then I remembered that on the afternoon of the same day Lady Astor, the Duchess of Somerset and the Duchess of Hamilton had attended a meeting of the Anti-Plum-

Age Society (which is on the same lines as the Agassiz Society) and that they had decided to further strengthen the proposed bill against the killing of birds for the purpose of their collection. He pointed out that he cannot take up a new kind of work if he is convinced that it is more valuable to himself or the community than the kind he is in; convinced, in short, that it is

pose of securing their readers as ornaments. At one time I thought that Lady Astor might be tempted to address the audience there and then, but she evidently thought better of her obvious intention.

I noticed her take out a notebook and write furiously therein for some minutes, however.

For day that Mrs. Asquith and Lady Astor were two of the most completely self-satisfied women in the world. "They just want to get into the limelight," she said, "and if they happened to be put into the

shade for a brief time their belief in their own personality is so supreme that they struggle and push through or over any obstacles until they get there!" This absolutely is

not true of Lady Astor. She is an enthusiastic and devoted Christian Scientist and her motto, really, is like that of Henry Ford: "Help the Other Fellow."

their usual easy gait, careless way, and the people paid no attention. Meanwhile the bubonic plague became epidemic. The city was full of rats, which in turn were full of

Taken altogether, these men ran up a pretty big bill by the end of the week. Montgomery & Son were prepared to charge up a good deal of this to loss. July Clearance

SILKS

Silks that inspire—Silks that tempt, and delight—and finally overwhelm one with the desire to own them! Robinson's Silks! These very Silks will be priced so low for tomorrow—the second day of the July Clearance Sale that one may own many of them.

Wednesday there is a choice of several favorites:

Tricolette, smooth and clinging, offers to put one in the fore-front of fashion for \$1.45 a yard. It is fine Tricolette, nevertheless, and comes in all the new colors; 36 inches wide.

Taffeta; that child of silks whose youthful spirit never droops, will impart some of its happy mood for the small sum of \$1.85 a yard. Beside the staple colors, it comes in many light and gay ones and it is all of 35 inches wide.

Soiree suggests the sunset part of evening in its lovely two-toned color effects. Imagine orchid and lavender and silver—rose and gold and other magic tints of early evening! This has been priced to sell at the yard.

Crepe—Roshanara and Nagasaki! Why say more? These are the heavy crepes so rich in themselves that they spin any trimmings. They are 35 inches wide and priced at the yard.

Second Floor

MILLINERY \$5 and \$7.50

Misses' and Women's Sports
Hats of silk and braid make
up an allotment of attractive
models which are reduced to
less than half price. There
are 55 at \$5.00.

A second group of Misses' and Women's Trimmed Hats for all occasions are also greatly reduced. Many are trimmed with flowers, some with ostrich; others are floppy garden hats and still others small hats for motoring. Every one is reduced to \$7.50.

Third Floor

Suits for Street and Dress 1/2

That have an air of their own, favor Tricolette, Pique Twills, Velours and Tweeds. And their colors—all the street and dress shades in suits: navy, green, brown, tan, sand, gray, black and white.

Regularly priced at from \$29.75 to \$250.00, Wednesday Half Price, to \$14.87.

Third Floor

Boys' Wool Suits \$11.75

Since "boys will be boys," boys' Suits must be strong. These are Pure Wool Suits with two pairs of Knickers (for that emergency) made to wear. The coats are well lined and have good pockets; the knickers are lined throughout.

There are such suits as are usually sold at a great deal higher price and they are worth it. There are several models and several shades from which to choose.

Marked to sell at less than the cost to the manufacturer, at \$11.75.

Boys' Section—Fourth Floor

Men's All Wool Overcoats \$45.00

English made Coats from London, include a number of Rain Coats. And, were it not for their low price, they would be entirely too handsome to wear in the rain!

American-made Coats of various weights come in heavy fleeces, worsteds, Scotch, Irish and English Tweeds, tailored to Robinson's specifications in various popular models; full cut, form fitting and some with half belts.

One of these Coats purchased now insures a great saving later.

For the July Clearance Sale on Wednesday, \$45.00.

ANTLERED HERD IN ROTOGRAVURE

Four Full Pages of Portraits of Visiting Elks in Next Sunday's "Times."

Next Sunday's rotogravure section of The Times will introduce to the people of Los Angeles the officers of the Grand Lodge of Elks and the visiting exalted rulers of the B.P.O.E.

A complete section of four pages will be devoted to the portraits of the visiting members of the antlered herd who are to grace here for the week of July 10 to 15.

The great series of "Eight-seeing Trips Through Southern California," showing the wonders of Catalina Island, also will be a feature. A full page will show the charming rooms of the White House presided over by Mrs. Warren G. Harding, the first lady of the land.

Arthur C. Brown Heads County's School Board.

The reorganization of the Los Angeles County Board of Education, effected yesterday afternoon, places Arthur C. Brown of Glendale as the new president of that body.

President Brown was, for eighteen years, the principal of McKinley Junior High School in Los Angeles, and is prominent throughout the State as an educator. He succeeds Mrs. Jenny Tucker Baker of El Monte, who retained her membership on the board.

Other members are George C. Bush, superintendent of South Pasadena city schools, and Dr. J. N. Lacy, an instructor at Huntington Park High School.

The new board yesterday began the examination of more than 100 applicants for teachers' certificates in the county. The task will be completed tomorrow.

WAR VETERAN WINS FALSE ARREST SUIT.

AWARDED DAMAGES IN CASE GROWING OUT OF LIBERTY BOND CAMPAIGN.

G. W. Dudderer, a Civil War veteran of Long Beach, whose relatives fought in the War of 1812 and whose grandfather was in the Revolutionary War, recovered a judgment of \$50 for false arrest in Judge Rogers' court yesterday. He sued for \$10,000 damages.

The arrest of Mr. Dudderer, 75 years of age, was an incident of war days when men went from house to house seeking who did or did not buy Liberty Bonds.

It seems that Mr. Dudderer had purchased Liberty Bonds, but it was complained that his language when questioned was caustic, and because of his purported drunkenness, he was taken to the Long Beach jail and asserted he was kept in the company of drunkards and criminals.

He brought suit against George H. Lashell, W. F. Deble and police officials of Long Beach. The case of Lashell and Deble was dismissed against the police officials and were detailed to interview Mr. Dudderer who became abusive, they said, and he was detained for investigation. Mr. Deble declared Mr. Dudderer accompanied him to the police station voluntarily. The judgment was against Mr. Deble.

Before moving to Los Angeles he had resided in Santa Rosa, Hanford and Santa Barbara, and was known as a drinker in each of those cities. As a private he was twice wounded in the Civil War. Mr. Lillie was born in Joliet, Ill., Jan. 3, 1842.

He leaves three children, by a former wife—Harry Lillie of this city; Charles Lillie, a "Vindicator" daughter, residing in New York. Mrs. Lydia B. Lillie became his wife at Huntington Park, May 21, 1905.

Funeral services will be in charge of the Stanton Post, Thursday at 1:30 p.m., at the parlors of Draper & Engemann, and interment will be at Mountain View Cemetery, Pasadena.

Other names who will appear in song and dance are: Fred Astaire, the "Vanity" dancer, in the "Vanity" act, and Jack Gardner.

SPEED UP PYLE, CONNER TRIAL

The Single Question Is Asked Former Film Promoter.

Had Many Dealings With Bank in Pasadena, He Says.

Testimony Shows He Had Big Credits at Institution.

The trial of W. J. Conner and Edward J. Pyle, charged with misappropriation of the funds of the National Bank and Trust Company of Pasadena, made rapid progress yesterday, before U. S. District Judge Hays and a jury.

The examination of the defendant, Mr. Conner, was concluded, the jury of every body, due to a motion of Capt. W. H. Harris, and the testimony of the defendant, who had his last single question asked by the State.

He gave the reply from Conner that he had asked Pyle to become manager of the organization, but that he refused.

With the close of the Conner testimony, the defense of Mr. Pyle was taken up, and John Murray Marshall, John McDonald, Lemuel L. Lee, a member of the Pasadena board of jurors in Judge Hays's court, and Joseph H. Hays, a member of the Pasadena board, and a witness for the government, all testified as to the character of the Crown City, testified as to the character of the Crown City, testified as to the character of the Crown City.

It is the expectation that the testimony will be concluded today.

Testimony of Mr. Conner was to show that he had had many financial dealings with the bank, and that he had had many financial dealings with the bank, and that he had had many financial dealings with the bank.

On the provisions of the loan, Mr. Conner was to open an account of \$100,000 with the bank, and that he had had many financial dealings with the bank, and that he had had many financial dealings with the bank.

SHIELDING WIFE MAY COST LIFE.

Man Accused of Stabbing Husband After Insulting Woman is Jailed.

FRESNO, July 4.—Tony Cabral is lying in a critical condition in a hospital here, the result of a stabbing by which took place about 8:30 p.m. yesterday, when Cabral is said to have stabbed Mr. Cabral because of a blow which followed insults alleged to have been offered to the injured man's wife.

According to information given by the police this morning, Mr. Cabral, with his wife and child, drove up in front of a poolroom and went into the poolroom. When he went in, Cabral is charged, walked up to Mrs. Cabral and used foul language. Mr. Cabral then emerged from the poolroom and struck Stanell, knocking him down. He then helped him up and the men shook hands.

Mr. Cabral, it is said, then turned to go back into the poolroom and was followed by Stanell, who is charged with having drawn a knife at the time. Stanell ran through the back of the poolroom and headed for the highway, where he hailed Sheriff McLennan of Kern county for a ride. Not knowing who the

man was, Sheriff McLennan picked him up and continued to drive toward Fresno. They were overtaken near Tagus by Sheriff Smith, and Stanell was arrested.

Appointments to see Mr. Dickover may be made by calling the Foreign Trade Department of the Chamber of Commerce.

A splendid market for raw materials and machinery for industrial purposes, is open in Kobe, according to Mr. Dickover, who was a visitor at the chamber yesterday.

There is, however, only a small market in Japan for finished apparel, household articles, prepared foods and textiles.

"The cotton grower will have ample market for his product," says Mr. Dickover, "as will the exporter of machinery, iron and steel products, heavy chemicals, dyestuffs, leather, petroleum products, and timber. There are a few lines of wholly manufactured goods, such as automobiles, sewing machines, certain drugs and chemicals, tools and industrial supplies which will be in demand in Japan."

"Most people, in thinking of Japan, have visions only of cherry blossoms, gorgeous temples, and Geisha girls. But, of vastly greater importance, from the point of view of the business man, are the giant cranes of the shipyards, the smoking factories of Osaka and the harbor works of Kobe. These are the things that have made the Japan of today."

While the question of a City Manager was discussed at last night's meeting, no decision was reached and the matter was allowed to go over until the Council has a called meeting.

Members who took their seats last night were organized by choosing Stephen Robinson, former Mayor, as chairman, and A. H. Lapham, re-elected and A. A. Davis and C. E. Kimlin, new members.

JAPAN OUTLET FOR TRADE.

Local shippers and traders with connections in Japan have an unusual opportunity to inform themselves upon business and manufacturing conditions through Erie St. Dickover, Vice-Consul of the United States, stationed at Kobe, who is in Los Angeles for two days. His connections with the Bureau of Foreign and Domestic Commerce in Washington enable him to be of even greater service to local shippers because of his contact with the whole shipping situation.

Appointments to see Mr. Dickover may be made by calling the Foreign Trade Department of the Chamber of Commerce.

RELIEF IN SUIT GIVEN BY SUICIDE.

Lawyer Notifies Court of Death When Divorce Case is Called.

"Your honor, the defendant has granted the relief prayed for," said Attorney W. E. Lady to Judge Sumnerfield yesterday, when the divorce suit of Jennie B. Wardell against David A. Wardell was called.

In this legal manner, Mr. Lady notified the court that Mr. Wardell was dead. After the papers in the divorce suit had been served on Mr. Wardell in a post hall, he went to his home and committed suicide by poison. The Wardells resided at 1341 West Seventh street.

In her complaint, Mrs. Wardell, represented by Mr. Lady, charged that her husband knocked her down, called her vile names and threatened to kill her.

LUMBER MAN BANKRUPT. James G. Ritchie, a lumber dealer of Long Beach, filed a petition in bankruptcy in the United States District Court yesterday, giving his liabilities as \$721.03, and his assets as nothing.

ACTOR HURT IN FALL WHILE MAKING FILM. Victor Mussetti, 35 years of age, a motion-picture actor, was painfully injured yesterday afternoon when he landed on the back of his head while taking a "picture flop" from a moving automobile at First and Flower streets. He was treated at the Receiving Hospital for concussion of the brain.

WINE DECLARED DAIT. Man Who Went to Draw Beverage Faces Auto Theft Charge.

"Wait while I draw some wine," Phillip H. Orr, on trial in Judge Willis's court on a charge of stealing an automobile, is quoted as saying to his friend, J. C. Winton, 322 North Kingsley Drive, on January 18. Mr. Winton said he waited some time and Orr returned with the wine. He left the house, but found his 1916 automobile had been stolen.

Mr. Winton testified that for several days Orr tried to find out marks of identification on the car, but that he did not tell all the marks. Later, according to Dep. Dist. Atty. McCortney and Turner, the defendant tried to sell four tires from the stolen car. He was arrested. Duke Riney, defense attorney, endeavored to prove that Orr had not stolen the car. The case will be resumed today.

ARRESTED TWO TIMES IN DAY.

Father in Court Accused of Stealing Own Child.

Seized Again on Charge of Failure to Provide.

Man Taken to Jail to Await Procuring of Bail.

Alfred Warren Hannon had a busy day yesterday. No sooner had he been released from Justice Brown's court on his own recognizance on a charge of stealing his own child, aged 7 years, than he was arrested on a charge of failure to provide for his minor children.

Mr. Hannon was arrested yesterday upon complaint of Benjamin A. Hannon, a relative, on a charge of leaving the child, who, it was charged, had been placed in the custody of the mother, Mrs. Edna May Hannon, 225 East Fifty-second street by Judge Wood. It was asserted by the relative that the father took the boy and was about to leave with him for Wichita, Kan. Constable Thomas and Stenland took Mr. Hannon into Judge Brown's court, where the defendant was arraigned. Hearing was set for Friday.

The court released Mr. Hannon on his own recognizance, but he had already left the courtroom when officers again took him into custody on failure to provide charge. He was taken to the County Jail to await the furnishing of bail. It was said that a divorce suit is being fought by Mrs. Hannon.

It was stated by H. H. Harris, Jr., Hannon's attorney, that she had sued the defendant for separate maintenance and that she was temporarily awarded \$40 a month alimony and \$100 a month alimony.

THIRSTY FINED FOR DRINKING.

Seventy-two Men Convicted in Police Court; Had Too Much on Fourth.

Seventy-two men who had celebrated the Fourth of July by drinking large amounts of bootleg whisky appeared in Police Court yesterday and received the usual fine of \$20 or twenty days in the City Jail. The sentence of "20 or 20" was broken only in three cases by Judge Chambers, before whom all the prisoners appeared. One man was assessed a \$50 fine and two others drew ten days in jail each.

FRENCH TO CELEBRATE FALL OF THE BASTILLE.

MEMBERS OF LOCAL COLONY TO OBSERVE MEMORABLE DAY NEXT WEEK.

Members of the French colony of Los Angeles and Southern California will, on the 14th inst., celebrate the anniversary of the fall of the Bastille. Exercises will be held at Exposition Park with an all-day program that includes addresses in English and French, boxing and fencing matches, music and, at night, a grand ball in the Armory. It was announced yesterday.

President Frank Nogues of the French colony will make the opening address and will be followed by Mayor Cryer, who will talk in English. The local French consular agent, Louis Sautou, Jr., and Capt. Paul Perigord will speak in French. George Breaux also is on the program for an address. "The Marvellous" will be sung by Francis Domercq. Prof. Joseph Dupuy will be in charge of the musical program.

The boxing and fencing matches will be under the auspices of the Los Angeles Athletic Club. Miss Louise Pion will represent America, Miss Marie Pion, France, and Miss Louise and Miss Louise Verges, Alsace-Lorraine.

MARRIAGE ENDS PLEA IN COURT.

Charge Dismissed When Man Weds Woman Who Asks Name for Children.

"If you want to do the right thing, marry me and give your name to my child, here and to the child to come," Florence Coeta Jennings passionately said to F. R. Valdes yesterday. Valdes was before Judge Sumner on a failure-to-provide charge. The court proposed to commit him to jail, but the outburst of the girl succeeded in turning a jail sentence into a marriage. Accompanied by Sheriff Harrod, the couple obtained a marriage license. Judge Sumner married them. He said to Valdes: "You have got to take care of these children."

EXPECT CLUB'S FUND TO MOUNT.

Year Campaigners Keep
Busy Over Holidays.

Scientific Reports Promised
at Today's Meeting.

Anticipated Subscriptions Are
Now Coming In.

Reports made yesterday by the headquarters of the All-Year Club of Southern California at the Chamber of Commerce, indicate that the fund for the campaign for a new school building, following their successful report, is expected to be completed by the end of the year. A survey last night showed that the campaign has been successful in force all over the city and that the fund is expected to be completed by the end of the year.

It was learned informally from the club members that the fund for the campaign for a new school building, following their successful report, is expected to be completed by the end of the year. A survey last night showed that the campaign has been successful in force all over the city and that the fund is expected to be completed by the end of the year.

C. E. SEAMAN HEADS BOARD OF EDUCATION

Committees to Direct the
Los Angeles School Work
Are Named.

Charles E. Seaman, member of Board of Education for the past two years, assumed the president's chair of the body at noon yesterday when the newly elected board held its first official meeting. President Seaman is the only male member who retains a place on the board. The only other holdover member is Miss M. Jessie York.

On the board, now constituted, there are two attorneys, Elliott Craig and Robert J. Elliott, a real estate man, G. Egerton Shore, and a former assistant superintendent of schools, M. C. Pettenger. Another new member, Mrs. Mary Mills, is the widow of the late president of the State Normal School.

Next to the election of the president, the most important step of the new board yesterday was the appointment of various committees that will direct the vast educational system of Los Angeles. Of these committees those dealing with the board's finances and its building program are considered the most important.

The committees named follow: Building: Messrs. Shore, chairman; Craig and Elliott, members. Finance: Messrs. Craig, chairman; Shore and Odell, members. Teachers and School: Mr. Bettenger, chairman; Miss York and Mr. Craig, members.

Purchasing and Distribution: Miss York, chairman; Mr. Craig and Mrs. Mills, members. Law and Rules: Mr. Odell, chairman; Mr. Bettenger and Mrs. Mills, members.

The police department has joined in the demand that the city install ventilating apparatus in the Third-street tunnel. The Board of Public Works yesterday received a report from Traffic Capt. Dowell to the effect that a disaster is likely to occur unless conditions in the tunnel are improved.

The police say they are doing everything in their power to prevent the effect that a disaster is likely to occur unless conditions in the tunnel are improved. Capt. Dowell declared that it is almost impossible to breathe in the tunnel between 8 a. m. and 10 a. m. on account of the fumes and gas that are being driven out of the tunnel.

Wife Who Shot Assured Rival Wins Allowance.
Mrs. Lillian J. Connolly, who served a term in jail for shooting rival for the love of her husband, William Wallace Connolly, yesterday seeking temporary alimony for the support of herself and an unborn child. When she spoke of her expected babe, her eyes filled with tears. She was released from jail June 28.

One of Mrs. Connolly's witnesses testified that Mr. Connolly showed a diamond ring and said he had purchased it for another woman. When the court heard this he declared that if Mr. Connolly had money to buy diamond rings for women, he can pay his wife \$15 a week for her support.

This order will be in force until Mr. Connolly's divorce suit is tried. In a cross-complaint Mrs. Connolly charges her husband with cruelty. This charge is based on his purported association with Mrs. Furgason.

Insurance Club to Open Local Conclave Today.
President Cochran of the Pacific Mutual Life Insurance Company will address 400 members of the Big Tree Club of the company this morning at the opening session of a three-day convention of the club. To become a delegate to this convention the annual business of the agent must not fall below \$12,000. Officers of the club are selected according to the amount of their business and it is understood that Felix M. Locher of Visalia, with business amounting to \$1,200,000, is to be the next president.

This noon the organization will give a luncheon for women at the Wilshire Country Club and this evening a reception will be tendered the delegates at the residence of Dr. W. W. Beckett, vice-president and medical director of the company. Tomorrow night a banquet will be held at the Ambassador and Friday evening a show will be given by the home office employees in the auditorium of the headquarters at Sixth and Olive streets.

FREDERICKS LOSER.
Burglars Get Jewelry and Clothes in Independence Day Raid.
During burglars some time during the Fourth looted the home of John D. Fredericks at 819 South Arden street and escaped with more than \$3000 worth of jewelry and clothes. According to Mr. Fredericks' report to the police, the burglars broke their way into his home through a glass door while he was away with his family.

ADULT SMUGGLING.
Men Say They Were to Deliver Goods to Merchant Here.
Investigation Inspector Chaffin brought to the city judge's attention a case of alleged smuggling of goods to a merchant here. The case involves a group of men who were arrested on the outskirts of the city. They had been hiding two who had been caught in the vicinity of the city.

Chaffin was walked to Brown street where they took a train. After the capture of the men, the case was held for trial in the county jail. The case involves a group of men who were arrested on the outskirts of the city. They had been hiding two who had been caught in the vicinity of the city.

People Are Market.Los Angeles Has Vast Back
Country to Draw On.Shows Need of Region-Wide
Production Program.

"Los Angeles is now ready to become a strategic world trade center and has within her reach a potential buying market of almost a billion people," declared Dr. Glen Levin Swiggett, head of the Foreign Trade Bureau of the Department of the Interior, in an address yesterday before the general assembly of the University of Southern California summer school.

"Los Angeles has within the United States a back country half as large as Mexico, not to reckon certain territory in the northern part of Mexico, upon which it may count for years as a market."

Regional co-operation in a region-wide production program, is necessary, some program of regional collective production is necessary, with advantages to accrue locally and individually. Once admitting the practicability of the proposition, a survey of the industrial and commercial possibilities of Nevada, Arizona and New Mexico in relation to Los Angeles as a strategic center of world trade is in order.

SUCCESS FORECAST.
"More and more in the United States must we plan for the regional movement of commodities with allocation to particular cities for manufacturing and shipping. By any such plan Los Angeles stands to win. Its natural increase in domestic and foreign trade will register alike with that of the larger American ports and with a larger increase in certain goods for which it has special economic advantages."

LOCAL ADVANTAGES.
"Los Angeles bids fair to assume a commanding position in the electrical industries, in brass and copper products, in manufactures from cotton, silk and vegetable fibers, in the rubber industry, in manufacturing novelties and specialties, in paper and printers' supplies, in the manufacture of all kinds of containers, chemicals, drugs, office equipment and supplies; above all in refined oil products, in leather goods, in musical supplies and art objects, in the manufacture of which an artisan class it would seem, can easily be induced to cooperate with the country, the climate and natural beauty of the place appealing to them."

"Among the entranced groups of manufacturers, to which many more of equal significance could be added, several new rank high in the

BACK FROM
CONFABS ON
POWER PLAN.Scattergood Says Federal
Program for the Colorado Is
Wonderful.

Chief Electrical Engineer Scattergood of the city's bureau of power and light, returned yesterday afternoon from Washington, where with Chief Engineer Mulholland of the water department, and President Robertson of the Board of Public Service Commissioners, he conferred with Federal officials relative to the development of the Colorado River.

"At our conferences," said Mr. Scattergood, "we told the Federal officials that Los Angeles desired to cooperate with the national government to bring about the most effective development of the Colorado possible for the good of the entire Southwest."

"The government's program is wonderful, as I believe everyone will admit when the final report is made to Congress. The national government's investigation of the possibilities of developing the Colorado River is being made by the Interior Department under instructions contained in the Kincaid Act. Under this measure, a report is asked for as to the possibilities and methods of developing the river for the purpose of flood control, storage for irrigation and for the development of power, the cost to be apportioned to the various States and communities affected in proportion to the benefits they receive from the work."

"Los Angeles is particularly in need of the power which will come from the development of the river, and I feel confident that we shall get it."

Mrs. George Lawrence Ott.

BACK FROM BRIEF
HONEYMOON TRIP.

Following a brief honeymoon trip, Mr. and Mrs. George Lawrence Ott have taken a residence in New Hampshire street. Mrs. Ott was Miss Mary Alice Devin, daughter of Mr. and Mrs. Joseph Devin, and Mr. Ott is the son of Mr. and Mrs. Lawrence Ott of Buren Place.

The wedding was celebrated in St. Paul's Church, Rev. Francis Ott, brother of the bridegroom, officiating. The bride wore a gown of white satin trimmed with rose point and pearls, with a veil of Brussels net. Miss Nabel Smith, the bridesmaid, wore a gown of pink silk and silver lace with a silver hat. Eleanor Devin, in pink organdy, was the flower girl. Leo Ward, the bridegroom's cousin, gave the best man. The wedding breakfast was served at the home of the bride's parents. Both are members of pioneer families.
